

af1 MINNESOTA **-CIO**

A STRONG, UNITED VOICE FOR
MINNESOTA'S WORKING PEOPLE

2016 **LEGISLATIVE** **REPORT**

INTRODUCTION

This State Legislative Voting Record includes:

Descriptions of key votes: Numbered explanations of votes taken in the Senate and the House that include the action voted on (motion, amendment, passage, etc.), together with the Minnesota AFL-CIO's position, the vote outcome and vote totals.

Tables showing key 2016 votes: Grids showing whether legislators supported or opposed working families with their votes. The numbered columns in the tables correspond to the numbered votes for the appropriate legislative body. These grids also contain vote issue, date, and House/Senate Journal pages.

Definitions of right and wrong votes: A legislator's vote is recorded as "Right" (R) - supporting the Minnesota AFL-CIO position, or "Wrong" (W) - opposing the Minnesota AFL-CIO position. If the legislator was absent or did not vote, "Not Voting" (NV) is recorded.

Lifetime voting records: The Minnesota AFL-CIO Lifetime Voting Records of current members of the House and Senate are included on the House and Senate grids in the far right column. Only actual "R" or "W" votes are counted in calculating a legislator's percentage of "right" votes. "NV"s are not used in calculating the percentage.

Notes on how votes are selected to this report: The votes chosen were based one or more of the following factors. The five factors are: 1) Long standing labor principles; state convention resolutions; Executive and/or General Board positions/resolutions; 2016 Legislative Priorities (next 2 pages); and issues that arose during the 2016 session, for which one or more affiliates requested assistance.

Votes have been selected for their accuracy as a gauge of legislator's views. Wide margin votes are avoided, unless they fit one of the five factors above or there are no other significant votes available on the issue. The legislature often makes critical decisions about the content of legislation through votes on amendments or procedural motions. These votes frequently reveal a legislator's position on an important issue more clearly than lopsided votes on a bill's final passage.

Sources: Information sources used to compile this record include the journals of the Minnesota House and Senate, the text of bills, the publications Session Weekly and Session Briefly, and affiliated unions.

Special Note: The votes, 2016 and lifetime, for the late Senator James Metzen are included in this voting record. This was done to honor Senator Metzen and his lifetime of work on behalf of working families. In his six terms in the Minnesota House of Representatives and his nine terms in the Minnesota Senate, Senator Metzen cast 660 votes on behalf of union members and their families. Labor will always remember Senator Metzen and his support for working families.

2016 LEGISLATIVE PRIORITIES

PROTECT PROGRESSIVE REVENUE SOURCES

Legislators should act cautiously in the 2016 legislative session and keep revenues strong to continue improving Minnesota's economy. We will work to ensure progressive and adequate revenues remain the goal in tax decisions. Cutting taxes risks our ability to continue funding our priorities and is an ineffective way to grow Minnesota's economy. It would make the next economic downturn even harder to recover from.

PASS COMPREHENSIVE, LONG-TERM MULTI-MODAL TRANSPORTATION FUNDING

Minnesota cannot grow and attract good jobs when our infrastructure is wearing out and transit options are woefully inadequate. Too many of our roads and bridges have exceeded their lifespans and are in desperate need of repair.

Workers need safer roads and better public transportation to get to jobs. Our seniors and people with disabilities need options to live independently.

In Greater Minnesota, reliable, convenient transit service is unavailable or sparse. Developing a comprehensive transit system that links suburbs and neighborhoods will take nearly a half century at the current funding rate. Safe, convenient bicycling and walking opportunities are missing in many communities, putting Minnesotans at risk.

Without immediate action on transportation, Minnesota can't attract top talent, our businesses and families will experience higher costs, and we will fall further behind. Each year we delay addressing Minnesota's urgent transportation needs, the cost to taxpayers' increases.

INVEST IN QUALITY LEARNING ENVIRONMENTS, ENGAGING STUDENTS, & IMPROVING EDUCATIONAL OUTCOMES

Minnesota's economic future depends on legislators making smart investments in today's students and their educators. Priorities for the 2016 session include, but are not limited to:

- Increasing access to quality early childhood programs taught by licensed professionals by providing more early childhood and family education classes and universal, school-based preschool for all children;
- Providing additional resources for school districts to restore student support staff cut in the past few years, including counselors, social workers, psychologists, nurses and other job classifications;
- Investing in infrastructure so that all students – no matter where they live – are in high-quality, safe learning environments.

BONDING

The Minnesota AFL-CIO strongly encourages the Legislature to pass a substantial bonding bill to create thousands of good-paying jobs while making critical investments statewide in projects like higher education infrastructure to make buildings more energy efficient and improve education and job training for students, transportation and transit projects that improve and expand access and modes, housing, and other basic infrastructure.

PAID FAMILY LEAVE FOR ALL MINNESOTANS

Only 13% of Minnesotans have access to paid family leave, meaning workers are often forced to choose between their families and their jobs. This provision would create an insurance program to provide all Minnesota employees with a percentage of their wages for up to 6 weeks so they can afford to take time off to bond with a new child, care for an elder or seriously-ill family member, or deal with pregnancy-related health concerns.

As a MN4PFL Coalition partner, we urge the 2016 Legislature to pass legislation creating a paid family leave insurance program that accomplishes the goals of providing financial and economic stability for workers by: expanding Paid Family & Medical Leave (PFML) access to as many Minnesotans as possible, improve economic competitiveness of businesses by increasing workforce attachment, and creating an efficient PFML system that maximizes benefits and reduces burdens to workers and employers.

EXTENSION OF UNEMPLOYMENT BENEFITS & PROTECTING TRUST FUND SOLVENCY

Minnesota's Unemployment Insurance program is one of the best in the country in delivery of benefits and mechanics of the tax system. Because of the way our UI tax system is structured, the trust fund was able to get out of deficit quickly, ultimately triggering off the additional surcharge and allowing a reduction in overall taxes for businesses. The one-year-"early" reduction passed by the Legislature in 2014 saved businesses more than \$800 million.

Underfunded UI systems can have serious consequences for workers. Several states with depleted trust funds have responded by cutting back either the duration or the amount of benefits available to workers, or both. Although the labor market is fairly strong right now, a growing number of economists are predicting that a downturn could come soon. The Minnesota AFL-CIO opposes any attempts to "spend down" the UI trust fund which could jeopardize a critical safety net for unemployed workers.

Thousands of Iron Range miners have been laid off, and another 700 more Minnesotans who work for vendors that support the mining industry have also lost their jobs. Foreign steel dumping has pushed ore prices to a 10- year low and devastated more than half the 11 mining operations on the Range. Keetac, and its hundreds of workers, has been idled indefinitely by U.S. Steel. The Mesabi Nugget iron plant near Hoyt Lakes and the Mining Resources iron concentrate plant near Chisholm will close for at least two years. Grand Rapids-based Magnetation, facing bankruptcy, idled plants in Bovey and Chisholm. United Taconite closed its mining operation in Eveleth and its pellet plant in Forbes. Northshore Mining in Silver Bay shut down in December, throwing 540 more people out of work.

The Minnesota AFL-CIO strongly supports legislation extending unemployment benefits for these workers and their families and providing desperately needed relief to these communities where mining has been the bedrock of the economy. By the time lawmakers return to work in March, almost 600 steelworkers will have run through their benefits already.

The Minnesota AFL-CIO will continue to support all issues that work toward addressing income inequality, economic opportunity, and tax fairness, as well as legislation championed by our affiliated unions.

SENATE VOTE DESCRIPTIONS

1. Extended Unemployment Benefits

Senate File 1006 – Passage (March 10, 2016/Senate Journal Pages 4969-4970)

SF 1006 – authored by Senator David Tomassoni (DFL Chisholm) – provided 26 weeks of extended unemployment benefits for thousands of steelworkers in the taconite mines, building trades members doing work in the mines, and vendors affected by the mass layoffs in northeastern Minnesota.

Minnesota AFL-CIO Position: **Support Passage**

Right vote: **Yea**

Senate Vote: **Passed 62 yeas, 3 nays**

End Result: **As part of the getting the House to pass the benefit extensions the Senate and Governor had to agree to \$258 million in credits to businesses' future unemployment insurance taxes. The Department of Employment and Economic Development, in consultation with labor, agreed on the condition that the UI Trust Fund (which pays benefits) contained a statutory solvency requirement – a first in the nation requirement. The solvency requirement and tax credits were contained in a separate bill, passing the Senate and House with only one “NO” vote.**

2. Omnibus Elections Bill

Senate File 2381 – Passage (April 26, 2016/Senate Journal Page 6481)

SF 2381 – authored by Senator Katie Sieben (DFL Newport) – was the comprehensive elections bill. The bill contained numerous non-controversial items but three sections of importance. The first provision simplified the absentee ballot process by allowing county auditors to have voters sign a statement and then complete a ballot that would be fed directly into a voting machine, similar to election-day voting. County Auditors were allowed this option up to seven days before the election.

The second important part of SF 2381 is referred to as “felon voting rights.” This permits those who have served their sentences to vote after release from incarceration – rather than waiting to do so until their paroles have expired. This provision of SF 2381 is similar to that in many other states, most notably North Dakota. Third, a provision, championed by Secretary of State Steve Simon, allowed individuals 17 years of age to register to vote as long as they reached 18 years of age by the election - an effort to get more young people involved.

Minnesota AFL-CIO Position: **Support Passage**

Right vote: **Yea**

Senate Vote: **Passed 37 yeas, 26 nays**

End Result: **An Omnibus elections bill did pass into law but the House Republican Majority amended out the felon voting rights and the ability of having young potential voters from being able to register early.**

3. Omnibus Supplemental Appropriations Bill

House File 2749 – Passage (April 28, 2016/Senate Journal Pages 6562-6563)

HF 2749 – authored by Senator Richard Cohen (DFL – St. Paul) – offered an amendment to this House File. This became the Senate the Fiscal Year (FY) 2016-2017 omnibus supplemental spending bill. The bill was a combination of all the different (FY) supplemental spending bills rolled into one large bill, totaling over \$450 million dollars.

Minnesota AFL-CIO Position: **Support Passage**

Right vote: **Yea**

Senate Vote: **Passed 39 yeas, 24 nays**

End Result: The House passed a \$3.2 million supplemental appropriations bill cutting programs and containing dozens of very harmful anti-working family policy provisions – none of which were contained in the Senate bill. After a long and contentious conference committee the legislature passed a supplemental package of \$182 million in funding.

While the Senate DFL majority was able to fight off the policy provisions, they could only get the House Republicans to a final funding number of \$182 million. This was substantially above the original House proposal (\$3.2 million) but still unfunded education and health and human services and did not fund the cost of paying overtime to health care workers.

4. Ratification of State Employee Contracts

Senate File 2626 – Passage (May 2, 2016/Senate Journal Page 6574)

SF 2626 – authored by the late Senator James Metzen (DFL – South St. Paul) – ratified all the collectively bargained contracts between state employee unions and the State of Minnesota.

Minnesota AFL-CIO Position: **Support Passage**

Right vote: **Yea**

Senate Vote: **Passed 48 yeas, 15 nays**

End Result: The DFL Senate majority ratified the state employee contracts in a very straight forward manner with this vote on May 2. The Republican House played games with the collective bargaining process throughout the House committee and floor process before finally ratifying the originally bargained contracts the day (May 22) before the session adjourned. It was obvious that House Republican leadership did not honor the collective bargaining process as both the House Speaker and House Majority leader voted “NO” when the House finally ratified the contracts.

5. Capital Investment (Bonding) Bill

House File 3467 – Passage (May 5, 2016/Senate Journal Pages 6838-6839)

HF 3467 – authored by Senator LeRoy Stumpf (DFL – Plummer) – offered the Senate \$1.5 billion bonding proposal to this House File. This was the final Senate passage on their bonding proposal. To pass, the bill constitutionally required a 3/5 vote or 41 votes.

While the Governor and the Senate had unveiled their bonding proposals, the House had refused to do so. The Senate wanted to force the issue with only three weeks left in the 2016 Legislative Session. The bill was estimated, by economists to create over 39,000 jobs.

Minnesota AFL-CIO Position: **Support Passage**

Right vote: **Yea**

Senate Vote: **Failed 40 yeas, 26 nays**

End Result: The Senate bill failed to pass by one vote. Only one Republican voted for the bill and two were needed for the bill to pass. Yet this became the Senate proposal for negotiations with the House that took place during the final days and hours of the legislative session. Ultimately, however, no bonding bill passed in the 2016 session (see Vote #8).

6. Tax Bill

House File 3931 – Passage (May 11, 2016/Senate Journal Pages 6981)

HF 3931 – authored by Senator Rod Skoe (DFL Clearbrook) – was the Senate tax proposal, amended to this House File. The Senate tax bill (amendment) contained numerous middle class and small business tax cuts. Just as importantly it contained the Paid Family Program that was a priority of the Minnesota AFL-CIO and a large Labor, Faith and Non-Profit coalition, including the Children’s Defense Fund and ISIAH.

Minnesota AFL-CIO Position: **Support Passage**

Right vote: **Yea**

Senate Vote: **Passed 37 yeas, 30 nays**

End Result: A tax bill did eventually pass the legislature in the final hours of the session. While it contained many good provisions, the bill did have hundreds of millions of dollars in “tails” that would affect future budgets. The bill was vetoed by Governor Dayton due to a serious drafting error that would have cost the state an extra \$100 plus million dollars.

7. Real ID

Senate File 3589 – Passage (May 12, 2016/Senate Journal Pages 7011)

SF 3589 – authored by Senator Scott Dibble (DFL Minneapolis) – implemented the Federal Government Real ID requirement. The bill contained a two-tiered driver's license provision to authorize an immigrant driver's license which labor, faith and non-profit groups supported.

During the 2015 Legislative Session, a House Committee hearing was held on a bill to authorize an immigrant driver's license. The Minnesota AFL-CIO and individual unions, the Chamber of Commerce, law enforcement organizations, religious organizations and immigrant organizations, as well as numerous other organizations, supported the legislation.

Minnesota AFL-CIO Position: **Support Passage**

Right vote: **Yea**

Senate Vote: **Passed 48 yeas, 16 nays**

End Result: No Real ID authorization passed despite widespread support. The House Republican majority in conference committee refused to accept the immigrant driver's license provisions. Additionally, even though the Minnesota business community had supported an immigrant driver's license publicly, they refused to advocate for the provision in this bill.

8. Capital Investment (Bonding) – Second Bill

House File 622 – Passage (May 22, 2016/Senate Journal Pages 8176)

HF 622 – authored by Senator LeRoy Stumpf (DFL Plummer) and Representative Peter Torkelson (R Hanska) – was an end of session attempt to pass a \$1.1 billion bonding bill. HF 622 was negotiated with the House/Senate Capitol Investment Committee chairpersons and House and Senate leaders. HF 622 was a combination of bonds and a small amount of General Funds. It did contain some transportation funding (small amount of road and bridge funding and even smaller amount of transit funding) but did not contain a mechanism allowing the metro area to fund the Southwest Light Rail line for \$135 million – needed to obtain the remaining federal funds of \$928.5 million to build the line. Labor does support funding Southwest and wanted in the bill, yet, supported passage of HF 622 as it did provide funding to create thousands of union building trade jobs.

Minnesota AFL-CIO Position: **Support Passage**

Right vote: **Yea**

Senate Vote: **Passed 53 yeas, 12 nays**

End Result: Ultimately the bonding bill failed in the final minutes of session. After the Senate passed the bill to the House, the House amended the bill to get the necessary 81 votes to pass the bill. Then the House sent it back to the Senate.

As the House had amended the bill, the Senate then amended the bill with a mechanism for the metro area to fund Southwest Light Rail (\$135 million metro funding to get \$928.5 million federal funding) and sent it back to the House. Despite the House receiving the bill before they adjourned for the session, House leadership adjourned without taking up the amended bill.

HOUSE VOTE DESCRIPTIONS

1. Extended Unemployment Benefits

Senate File 1006 – Passage (March 24, 2016/House Journal Pages 6344-6345)

SF 1006 – authored by Senator David Tomassoni (DFL Chisholm) and Representative Jason Metsa (DFL – Virginia) – provided 26 weeks of extended unemployment benefits for thousands of steelworkers in the taconite mines, building trades members doing work in the mines, and vendors affected by the mass layoffs in northeastern Minnesota.

Minnesota AFL-CIO Position: **Support Passage**
Right vote: **Yea**
House Vote: **Passed 113 yeas, 17 nays**

End Result: **As part of the getting the House to pass the benefit extensions the Senate and Governor had to agree to \$258 million in credits to businesses' future unemployment insurance taxes. The Department of Employment and Economic Development, in consultation with labor, agreed on the condition that the UI Trust Fund (which pays benefits) contained a statutory solvency**

requirement – a first in the nation requirement. The solvency requirement and tax credits were contained in a separate bill, passing the Senate and House with only one “NO” vote.

2. Voice-over-Internet Protocol Amendment

House File 3931 – Johnson, S. Amendment (April 27, 2016/House Journal pages 7758-7759)

HF 3931 – authored by Representative Pat Garafalo (R Farmington) – was the House Omnibus Agriculture, Environment & Natural Resources, Employment & Economic, Energy Policy and Finance bill. One provision of the bill de-regulated Voice-over-Internet Protocol (VoIP) and Internet Protocol enabled service. The provision, supported by large corporations would have eliminated consumer protections, overturned a court decision on appeal in Federal District Court, and would have put local phone companies at a competitive disadvantage. VoIP de-regulation is a model bill of the conservative American Legislative Exchange (ALEC).

Representative Sheldon Johnson (DFL St. Paul) authored an amendment to HF 3931 to remove the deregulation provision from the bill, thereby ensuring state regulation to protect consumers. The amendment was supported by the Minnesota AFL-CIO, Communications Workers of America, Legal Aid and AARP.

Minnesota AFL-CIO Position: **Support Amendment**
Right vote: **Yea**
House Vote: **Failed 57 yeas, 73 nays**

End Result: **The amendment failed and VoIP deregulation remained in the bill. HF 3931 was later incorporated into the House version of the Omnibus Supplemental Finance bill (HF 2749). The Senate conferees refused to accept this amendment and the provision did not become law.**

3. Workforce Development Fund Amendment

House File 3931 – Mahoney Amendment (April 27, 2016/House Journal pages 7761-7762)

HF 3931 – authored by Representative Pat Garafalo (R Farmington) – was the House Omnibus Agriculture, Environment & Natural Resources, Employment & Economic, Energy Policy and Finance bill. One provision raided \$4 million of Workforce Development Fund (WDF) to partially pay for broadband services in the state. The WDF funds training and related services to dislocated workers. The WDF is funded by all businesses by an additional .1 percent assessment on the unemployment taxes paid.

Representative Tim Mahoney (DFL St. Paul) authored an amendment to remove this provision from the bill and restore the money to the WDF. He pointed out that the provision in HF 3931 would cause the WDF to run out of money in 2017 – earlier if a recession developed. The result would be fewer dislocated workers served or funds available for only partial training.

Minnesota AFL-CIO Position: **Support Amendment**

Right vote: **Yea**

House Vote: **Failed 58 yeas, 73 nays**

End Result: **The amendment failed and the cuts to the WDF fund remained in the bill. HF 3931 was later incorporated into the House version of the Omnibus Supplemental Finance bill (HF 2749). The Senate conference committee members (conferees) refused to accept this amendment and the provision did not become law.**

4. Omnibus Ag., Environment, Employment & Ec. Dev. Bill

House File 3931 – Passage (April 27, 2016/House Journal pages 7763-7764)

HF 3931 – authored by Representative Pat Garafalo (R Farmington) – was the House Omnibus Agriculture, Environment & Natural Resources, Employment & Economic, Energy Policy and Finance bill. Besides the two provisions mentioned in the last two votes (#2 and #3), the bill contained other negative provisions and cut state funding to numerous state agencies, including the Bureau of Mediation Services, the Department of Employment and Economic Development and Housing Finance Agency.

Minnesota AFL-CIO Position: **Oppose Passage**

Right vote: **Nay**

House Vote: **Passed 72 yeas, 54 nays**

End Result: **While the bill passed, the Minnesota AFL-CIO worked with DFL Senate conference committee members (conferees) to ensure the bad provisions and budget cuts contained in HF 3931 (later HF 2749) did not become law. Senate conferees did not pass the bad policy provisions and some funding was restored, but the bill still underfunded education and health and human services.**

5. School Employee: Group Insurance Coverage Amendment

House File 3467 – Murphy, E. Amendment (April 28, 2016/House Journal pages 7785-7786)

HF 3467 – authored by Representative Matt Dean (R Dellwood) – was the House Omnibus Health & Human Services, State Government, & Public Safety Policy and Finance Bill. The State Government portion of the bill amended the School Employee Health Insurance plan. Education Minnesota, the Minnesota AFL-CIO and other unions had advocated to pass a health plan for school employers for years. HF 3467 changed a provision in law that required school districts to go out to bid for health insurance plans every two years and changed it to every five years. The bill deleted the law that one of the bids that districts were required to obtain had to be from the Public Employee Insurance Program (PEIP). HF 3467 also restricted the role of the “exclusive representative of the largest group of employees” (teachers).

In the short time this law had been in effect a number of school districts had obtained lower bids or in a few cases went with PEIP. The changes made in HF 3467 gave insurance companies and cooperatives an advantage on getting school district health insurance contracts – at higher costs.

Representative Erin Murphy (DFL St. Paul) authored an amendment to delete the provisions of HF 3467 that gutted the School Employee Health Coverage law.

Minnesota AFL-CIO Position: **Support Amendment**

Right vote: **Yea**

House Vote: **Failed 48 yeas, 78 nays**

End Result: **The amendment failed and the changes to the School Employee Health Plan law remained in the bill. HF 3467 was later incorporated into the House version of the Omnibus Supplemental Finance bill (HF 2749). The Senate conferees refused to accept the health plan changes – they didn’t become law.**

6. Private Prisons

House File 3467 – Hilstrom Amendment (April 28, 2016/House Journal pages 7820-7821)

HF 3467 – authored by Representative Matt Dean (R Dellwood) – was the House Omnibus Health & Human Services, State Government, & Public Safety Policy/Finance Bill. A provision in the Public Safety part of the bill authorized the Commissioner of Corrections to enter into negotiations with Corrections Corporation of America (CCA) to contract to operate, purchase or lease to own the private prison in Appleton, MN.

A large coalition, including AFSCME, the Minnesota AFL-CIO, ISAIAH, and other non-profit and religious organizations worked with the Department of Corrections in advocating against private prisons and CCA. CCA has a horrendous record of running private prisons and was recently banned by the federal government from running any private federal prisons.

Representative Debra Hilstrom (DFL Brooklyn Center) authored an amendment to delete the private prison provisions of HF 3467. The amendment banned the state from entering into any contract or lease with private prison owners and banned local law enforcement from entering into any lease agreement with private prisons.

Minnesota AFL-CIO Position: **Support Amendment**

Right vote: **Yea**

House Vote: **Failed 58 yeas, 71 nays**

End Result: **The amendment failed and the prison privatizations changes remained in the bill. HF 3467 was later incorporated into the House version of the Omnibus Supplemental Finance bill (HF 2749). The Senate conferees refused to accept any private prison provisions.**

7. Omnibus Health & Human Services, State Government, & Public Safety Bill

House File 3467 – Passage (April 28, 2016/House Journal page 7846)

HF 3467 – authored by Representative Matt Dean (R Dellwood) – was the House Omnibus Health & Human Services, State Government, & Public Safety Policy and Finance Bill. In addition to the two provisions in the last two votes (#5 and #6), HF 3467 contained a state hiring freeze, a limitation on the total number state employees, and massive cuts to numerous state agencies.

Minnesota AFL-CIO Position: **Oppose Passage**

Right vote: **Nay**

House Vote: **Passed 72 yeas, 57 nays**

End Result: **While the bill passed, the Minnesota AFL-CIO worked with DFL Senate conference committee members to ensure the bad provisions and budget cuts contained in HF 3467 (later HF 2749) didn't become law. Senate conferees did not pass the bad policy provisions. Some funding was restored but the bill still underfunded education and health and human services and did not fund the cost of paying overtime to health care workers.**

8. Real ID

SF 3589 Hamilton Amendment (May 17, 2016/House Journal pages 8326-8328)

SF 3589 – authored by Senator Scott Dibble (DFL Minneapolis) and Representative Dennis Smith (R Maple Grove) – implemented the Federal Government Real ID requirement. The House language amended into SF 3589 DID NOT contain the two-tiered driver's license provision to authorize an immigrant driver's license. The bill, in fact, prohibited such a drivers' license from being considered by the state. Labor, faith and non-profit groups supported creation of an immigrant drivers' license.

Representative Rod Hamilton (R Mountain Lake) authored an amendment to remove the prohibition, in essence adding a dual immigrant license provision into the House Real ID bill. Representative Hamilton was an advocate for an immigrant license in 2015 and 2016 sessions.

During the 2015 Legislative Session, Representative Hamilton repeatedly tried to get a committee meeting in the House, which his party controlled. He received an "informational hearing" in a House Committee hearing on his bill, authorizing an immigrant driver's license. The Committee Chair, at the direction of House majority leadership, would not allow a vote on the bill. The Minnesota AFL-CIO, individual unions, the Chamber of Commerce, law enforcement organizations, religious organizations, immigrant organizations, and numerous other organizations, supported the legislation.

Minnesota AFL-CIO Position: **Support Amendment**

Right vote: **Yea**

House Vote: **Failed 55 yeas, 76 nays**

End Result: **This amendment failed and no Real ID authorization passed despite widespread support. The House Republican majority in conference committee would not accept the immigrant driver's license provisions in the Senate bill. Even though the Minnesota business community had supported an immigrant driver's license publicly, they did not advocate for the provision in the bill.**

9. Capital Investment (Bonding) Bill

House File 622 – Passage (May 19, 2016/House Journal Pages 8431-8432)

HF 622 – authored by Representative Peter Torkelson (R Hanska) – was the House \$800 million bonding bill revealed one day before this vote – with no input from the DFL minority caucus. To pass the bill constitutionally required a 3/5 vote or 81 votes. While the Governor had unveiled his \$1.4 billion bonding proposal on January 15 and the Senate revealed their \$1.5 billion bonding proposal on May 3, the House waited until 5 days before the scheduled adjournment of the session to display their bonding plan.

The Minnesota AFL-CIO has always supported bonding bills, however this House bill was regionally unbalanced, had minimal funding for the university and college systems infrastructure and was centered in majority Republican districts. It was woefully inadequate for the state's infrastructure needs. Labor urged the House majority to work towards a compromise bill with the Governor and Senate.

Minnesota AFL-CIO Position: **Oppose Passage**

Right vote: **Nay**

House Vote: **Failed 69 yeas, 64 nays**

End Result: **This bill failed as it fell short of the 81 votes necessary. House and Senate legislators searched for a compromise and one was reached in the final hours of session but the issue of the metro area being able to fund the Southwest Light Rail Line, which labor supports, brought the bill down.**

10. State Contracts – Interference with Collective Bargaining Process

House File 3585 – Passage (May 20, 2016/House Journal Page 8496)

HF 3585 – authored by Representative Steve Drazkowski (R Mazeppa) – was a very anti-union bill. The bill did ratify some of the collectively bargained state contracts, however, the bill also changed how contracts could be collectively bargained and implemented. HF 3585 also contained a long sought after provision by anti-union organizations – “paycheck deception.” The “paycheck deception” provision,

essentially prohibits political contributions. Such provisions contained in HF 3585 have been the first steps anti-union forces have taken to get to full “right-to-work” legislation – Wisconsin is a recent example.

Minnesota AFL-CIO Position: **Oppose Passage**

Right vote: **Nay**

House Vote: **Passed 69 yeas, 61 nays**

End Result: **While HF 3585 did pass the House, there was no companion bill in the Senate so the bill died after this vote.**

11. Ratification of State Employee Contracts

Senate File 2626 – Final House Passage (May 21, 2016/Senate Journal Pages 6574)

SF 2626 – authored by the late Senator James Metzen (DFL – South St. Paul) and Representative Leon Lillie (DFL North St. Paul) – ratified all the collectively bargained contracts between state employee unions and the State of Minnesota.

Minnesota AFL-CIO Position: **Support Passage**

Right vote: **Yea**

House Vote: **Passed 104 yeas, 25 nays**

End Result: **This vote by the House meant the state employee contracts were finally ratified. The DFL Senate majority had ratified the state employee contracts in a very straight forward manner on May 2. The Republican House played numerous games with the collective bargaining process throughout the House committee and floor process before this ratification vote (see previous vote, #10). It was obvious that House Republican leadership did not honor the collective bargaining process as both the House Speaker and House Majority leader voted “NO” on this ratification vote.**

12. Capital Investment (Bonding) – Second Bill

House File 622 – Passage (May 22, 2016/House Journal Pages 9482-9483)

HF 622 – authored by Representative Peter Torkelson (R Hanska) and Senator LeRoy Stumpf (DFL Plummer) – was an end of session attempt to pass a \$1.1 billion bonding bill, negotiated with the Senate and House Capital Investment Committee Chairpersons and House and Senate leaders. The bill, a combination of bonds and a small amount of General Funds, did contain some transportation funding (small amount of road and bridge funding and even smaller amount of transit funding) but did not contain a mechanism allowing the metro area to fund the Southwest Light Rail line for \$135 million – needed to obtain the remaining federal funds of \$928.5 million to build the line. Yet, labor supported passage as the bill did provide funding to create thousands of union building trades' jobs.

Minnesota AFL-CIO Position: **Support Passage**

Right vote: **Yea**

House Vote: **Passed 91 yeas, 39 nays**

End Result: End Result: **Ultimately the bonding bill failed in the final minutes of session. After the Senate passed the bill to the House, the House amended the bill to get the necessary 81 votes to pass the bill. Then the House sent it back to the Senate.**

As the House had amended the bill, the Senate then amended the bill with a mechanism for the metro area to fund Southwest Light Rail (\$135 million metro funding to get \$928.5 million federal funding) and sent it back to the House. Despite the House receiving the bill before they adjourned for the session, House leadership adjourned without taking up the amended bill.
